Milia

Also called **milk spots**, are benign keratin-filled cysts that can appear just under the epidermis. They are commonly associated with newborn babies but can appear on people of all ages. They are usually found around the nose and eyes. Milia can also be confused with stubborn whiteheads. Milia can sometimes be a result of harsh face washes or from repeated heat stress to the skin.

Starting from £80.00

Skin Tag Removal

Skin tags are common, acquired, benign skin growths that look like a small piece of soft, hanging skin. Skin tags are harmless growths. Some individuals may be more prone to tags, either through increased weight, part combined with heredity, or other unknown causes. Males and females are equally prone to developing skin tags.

Starting from £80.00

Laser Red Vein Treatment

We use the IPL and Nd:YAG Laser to treat fine threads veins. The Laser energy targets and cauterizes the veins, effectively cutting off the blood supply. Once blood is no longer supplied to the vein, it will be naturally expelled and absorbed by the body. Thread veins measuring a maximum of 4mm and less in diameter can be treated with our Laser. Thread veins of this size can also be treated on the body. Typically 1-4 treatments are required, approx 1 month apart, depending on the condition.

Microdermabrasion

Microdermabrasion can be use to reduce enlarged and blocked pores, balance skin pigmentation, reduce acne scarring, fine lines, wrinkles and stretch marks. All areas of the body can be treated with Microdermabrasion.

Crystal Clear Microdermabrasion

Crystal Clear - The Celebrities Favourite!

Medical grade crystals remove the uppermost dead layer of the skin and expose living cells that are soft, smooth and receptive to nutrients. The increased blood supply stimulates the production of skin cells, collagen and elastin fibres. In independent clinical trials, Crystal Clear Microdermabrasion System was conclusively proven to dramatically and visibly improve the texture and appearance of the skin, reducing and smoothing fine lines and wrinkles, producing a smoother, more rejuvenated skin.
